Digital Frame

■ Why use digital signage system?

- 10x Eye-contact catching
    A dynamic sign has more than 10 times power to get your customers' attention.
- Right place! Right time!
    With digital signage system, retailers are able to change the content at anytime, anywhere.
- Save cost and time
    Save on printing/distributing costs and processing time.

The photorek provide most cost–effective solution to communicate with customers

● Just place major format of flash memory card into the appropriate slot on the side of the frame, and your pictures and video will be instantly displayed on the screen after power on system.
